

60-Second Evacuation Plan

When a fire is nearing, don't wait for an official order to leave. With a ready go-bag, you can be out the door in about a minute. Keep this sheet where the whole household can see it.

**If you feel unsafe, GO NOW. Stuff can be replaced.
Leaving early keeps roads clear for you and for firefighters.**

Grab & Go — the 6 P's

- ☐ **People & pets** — everyone accounted for; leashes and carriers
- ☐ **Papers** — IDs, passports, birth certificates, deeds
- ☐ **Prescriptions** — medications, eyeglasses, first aid kits
- ☐ **Pictures** — photos and irreplaceable keepsakes
- ☐ **Personal devices** — phone, laptop, and backup drives
- ☐ **Plastic & cash** — credit/ATM cards and some cash

Your 60-second sequence

- 0:00** Get everyone and pets into the vehicle
- 0:15** Grab the go-bag and the 6 P's (kept by the exit)
- 0:30** Dress for safety if you can (long sleeves, closed shoes, N95 mask)
- 0:40** If time: close windows and doors; leave doors unlocked and a porch light on
- 0:50** Headlights on, windows up, vents on recirculate
- 0:60** Drive your planned route. Leave now and do not turn back

Only if you have time AND it's safe (skip if in doubt)

- ☐ Shut off gas/propane at the tank or meter
- ☐ Move patio furniture, doormats, and cushions inside or away
- ☐ Connect garden hoses; fill tubs and buckets with water
- ☐ Close the garage door; know how to open it by hand

Our plan (fill in and post)

Go-bag is kept: _____	Local alerts / my zone: _____
Near meeting place: _____	Out-of-area meeting place: _____
Out-of-area contact + phone: _____	Backup contact + phone: _____
Primary route out: _____	Backup route out: _____
